RE: Price Increase

QC Metal Pickling and Vision Pickling & Processing announce a price increase of approximately 5% effective with shipments July 1, 2010 regardless of order entry date. Please contact your representative at either QCMP or VPP for specific item increases.

We are proud that we have been able to hold off a price increase until this time. Since our last increase in early 2008, we have put into place many cost saving ideas. However, the continued rise in cost of chemicals and insurance are out of our control.

QCMP and VPP do appreciate your past business and look forward to satisfying your pickling and processing needs in the future.

Best Regards,

Jeffery Heintz
General Manager
QCMP / VPP
