

Vision Pickling & Processing
QC Metal Pickling
Temporary Worker Safety Policies

Be respectful of co-workers. Horseplay or conduct in disregard of safety rules is strictly prohibited. No running in the plant. No throwing of any objects at any time.

Fork Truck Safety: Only authorized workers are allowed to operate forklifts. Authorized workers will be approved by the Plant Manager. Never operate any forklift faster than a slow walk.

Personal Protective Equipment: Steel Toe Boots are required (Metatarsal Boots Recommended) Safety glasses must be worn at all times. Long sleeve shirts or arm guards must be worn. Always wear cloth or rubber gloves at all times when handling steel. Ear plugs are optional and available.

Banding Equipment: Always place hand over banding while cutting bands on material to be loaded. Always wear cloth or rubber gloves when handling any banding or banding tools. Report defective equipment immediately and do not operate until cleared by supervisor.

Lifting: Employees lifting heavy loads must lift properly and work in teams.

Be Aware of Pinch Points: 1) When working in pairs, let one man lead with piece positioning before other worker grabs material. Communicate each repetition. 2) Do not position yourself where metal can fall and trap your hands, feet or body between steel or fixtures. 3) Be aware of equipment and material movement around you by forklift or crane. Keep a safe distance between yourself and moving equipment/material.

ALWAYS LEAVE YOURSELF AN EXIT.
